

MODULES OF THE ONLINE COMPLAINT REGISTRATION MANAGEMENT SYSTEM

1. User Registration & Profile Creation

Secure Sign-Up

The system allows users to create an account using a valid email address and password. User passwords are securely encrypted, ensuring safe authentication and protecting personal information from unauthorized access.

Profile Creation

After successful registration, users can create and manage their personal profile by providing details such as:

- Full Name
- Email Address
- Mobile Number
- Residential Address
- Government ID (Optional)

The profile information is securely stored and used for complaint registration, tracking, and communication.

2. Department Selection & Complaint Category Filtering

Search and Filter Departments

Users can browse and select the appropriate department based on the type of complaint. The system provides multiple complaint categories, including:

- Police Department
- Electricity Department
- Municipality
- Water Supply
- Roads & Transport
- Health Department

- Education Department
- Public Services

Filtering helps users submit complaints to the correct department for quicker processing.

Real-Time Complaint Status Tracking

Users can monitor the status of their complaints at every stage, including:

- Submitted
- Under Review
- Assigned
- In Progress
- Resolved
- Closed

The system provides real-time updates to improve transparency and user satisfaction.

3. Complaint Registration & Management

Complaint Submission

Users can easily submit complaints through a simple online form by:

- Selecting the complaint category
- Choosing the concerned department
- Entering a complaint title
- Writing a detailed description
- Uploading supporting documents or images
- Providing the complaint location

A unique Complaint ID is generated automatically for future tracking.

Complaint Management

Users can:

- View submitted complaints
- Track complaint progress
- Edit complaints before processing (if permitted)
- View complaint history
- Download complaint details

Automated Notifications

The system automatically notifies users whenever:

- A complaint is successfully registered
- The complaint is assigned to an officer
- The complaint status changes
- The complaint is resolved or closed

Notifications can be sent through email, SMS, or in-system alerts.

4. Officer Dashboard

Manage Assigned Complaints

Authorized officers can access a dedicated dashboard to:

- View assigned complaints
- Search and filter complaints
- Update complaint status
- Add remarks or action notes
- Upload supporting documents
- Submit resolution reports

Action Logging

Every action performed by an officer is securely recorded, including:

- Date and Time
- Officer Details
- Status Updates
- Resolution Notes
- Supporting Documents

This ensures accountability and maintains a complete complaint history.

5. Admin Controls & Verification

Officer Approval System

The administrator is responsible for verifying and approving officer accounts before granting system access. The admin can:

- Approve or reject officer registrations
- Assign departments
- Manage user roles and permissions
- Disable unauthorized or inactive accounts

System Monitoring

The administrator has complete control over the platform and can:

- Monitor all registered complaints
 - Track complaint progress
 - View dashboard analytics
 - Handle escalated complaints
 - Generate reports
 - Manage users and officers
 - Maintain database security
 - Ensure smooth system operation
-

Additional Features

- Secure User Authentication
 - Role-Based Access Control (User, Officer, Admin)
 - Complaint Search and Filtering
 - Complaint History
 - Complaint Priority Management
 - Dashboard Analytics
 - File Upload Support
 - Email Notifications
 - SMS Notifications (Optional)
 - Complaint Reports
 - Activity Logs
 - Responsive User Interface
 - Secure Database Management
-

User Roles

User

- Register and log in
- Create and update profile
